

# SINGLE PHASE AUTOTRANSFORMERS

Ref : 6A163-AB-H130

\*Dimensions are expressed in millimeters, mass in kilograms and reserves represent the ventilation space to be kept around the product for good heat dissipation. The drawing is not contractual.

|  |                         |
|--|-------------------------|
| Product reference                                | 6A163-AB-H130           |
| Power/Value                                      | 16 KVA                  |
| IP Indice  | IP21                    |
| Voltage(s)/Current                               | 400V / 230V             |
| Number of Phases                                 | Single-Phase            |
| Use frequency                                    | 50-60Hz                 |
| Standard   | IEC 60076-11            |
| Winding material                                 | Aluminium               |
| RoHS compliant                                   | Yes                     |
| Temperature rise class                           | Classe H                |
| Eyebolts   | Yes                     |
| Recommended Electrical Protection Input / Output | DJ D - 60A / DJ C - 80A |
| Dielectric Input/Output and active/ground        | / 3000V                 |
| Insulation class                                 | I                       |
| Cooling  | Air Naturel             |
